

REINVENT HOW THE WORLD CLEANS

Small Space Solutions

Overall cleanliness and appearance — especially in high-traffic areas — are important to creating positive customer experiences that drive repeat business. Tennant floor care solutions help you provide a clean, safe, attractive environment.

Tennant helps you optimize your cleaning time and reduce equipment downtime with a range of high-performance, efficient floor cleaning machines.

Cleaning Challenges

Maintaining small and occupied public spaces like convenience stores, quick-serve restaurants, small retail locations and restrooms can be challenging.

- With floor space at a premium, cleaners typically have to navigate shelves, display stands, furnishings and often customers.
- Foot traffic is constant, making it difficult and unprofitable to close an area for cleaning.
- Wet floors, when open to foot traffic, increase the possibility of an accident, including a slip and fall event.
- Customers expect clean and safe spaces.
